OFFICE OF THE SECRETARY OF DEFENSE

30 January 1968

MEMO FOR Dr. Edward L. Allen

Your recent OER study of January 1968 (ER IM 68-5) re East-West German trade was directly on target in responding to Secretary Nitze's interest. He was most appreciative of the special effort to focus upon his political implications question.

You can consider this request fulfilled. However, if further analysis makes a pertinent contribution, I am sure he would very much like to be apprised.
